PROGRAM OVERVIEW

The Business Administration option in the Enterprise Development Degree is a flexible two-year degree in business that includes the most desirable core competencies requested by employers and will provide a degree completion framework that matches student aspirations with the needs of all industry sectors.

This option provides a well-rounded degree program, while allowing the student to focus on the knowledge, skills and attributions needed in their chosen field. Offering undergraduates the opportunity to learn and practice core skills for business growth, become leaders in an organization, master key technology processes and continuously upgrade those skills throughout their working years are the central themes of this degree completion program.

Must have at least 18 previous college credit hours, a 2.5 GPA and all remediation courses complete.
