A.D.A. INFORMATION

Eligibility for Services

Students requesting disability services and accommodations must self-identify the disability and submit a signed request listing the desired requested accommodations to Academic Advisement Office (Tishomingo or Ardmore). This should be done upon registration, but in any event it should be done no later than the end of week one of a semester, or within three days of the start of an intersession, or on the first day of a one-week or shorter class. The earlier the request is submitted, the greater the opportunity MSC has to respond to the need following receipt of required documentation.

Documentation Guidelines

Formal written documentation is required by a certified licensed professional. Such documentation must be typed on letterhead of either the practitioner or agency hosting practice. The documentation must be current, and the testing instruments must be appropriate for use with adults. MSC does **not** accept Individualized Educational Programs (IEP) as official documentation. In general, the documentation of disability should include the following:

- A diagnostic statement identifying the disability, date of the current diagnostic evaluation, and the date of the original diagnosis;
- A description of the diagnostic criteria used;
- A description of the current functional impact of the disability for use in establishing the need for and the design of accommodations;
- Treatments and medications, assistive devices currently prescribed or in use;
- A description of expected progression or stability of the impact of the disability over time;
- The credential of the diagnosing professional(s)

Students requiring accommodations and/or assistance due to a disability should contact the Academic Advisement Office, Student Services Building, Suite 116. The student will be required to provide supporting documentation from a qualified professional evaluator. Murray State College complies with the Americans with Disabilities Act of 1990 and the Rehabilitation Act of 1973.
