## ENROLLMENT POLICIES

### Deadline Dates and Student Responsibility

Not all classes have the same deadline dates. Deadline dates vary depending upon the length of the class. Each class has a specific refund, Add/Drop without a "W" and Withdraw with a "W" deadline. Please refer to the dates listed in the below calendar. Even though some instructors may drop students for non-attendance, your enrollment is your responsibility. Do not rely upon your instructor to drop you.

Withdrawing before the 60% Date (Spring 2013 – March 28, 2013) will result in repayment of Financial Aid. No withdrawals except complete withdrawals from the college are permitted during the last two weeks of a regular term or the last week of an 8-week summer term unless extraordinary circumstances are documented and approved by the Office of Academic Affairs.

### Developmental Courses

Any course that begins with a zero (i.e., MTH0103) is pre-collegiate. It does not count for college credit and does not apply toward graduation. All pre-collegiate courses are graded with an "S" or a "U"

## GRADUATES

### Apply for Graduation

Spring Graduates should apply for graduation no later than February 15, 2013. A \$40.00 graduation fee will be charged at the time of application and must be paid by April 30, 2013.

### Mid-Level Assessment

Potential graduates who have taken all coursework with Murray State College or who have no more than six hours transferred from another institution are required to participate in the Mid-Level Assessment test. **A.D.A. INFORMATION**

**Eligibility for Services**

Students requesting disability services and accommodations must self-identify the disability and submit a signed request listing the desired requested accommodations to Academic Advisement Office (Tishomingo or Ardmore). This should be done upon registration, but in any event it should be done no later than the end of week one of a semester, or within three days of the start of an intersession, or on the first day of a one-week or shorter class. The earlier the request is submitted, the greater the opportunity MSC has to respond to the need following receipt of required documentation.

**Documentation Guidelines**

Formal written documentation is required by a certified licensed professional. Such documentation must be typed on letterhead of either the practitioner or agency hosting practice. The documentation must be current, and the testing instruments must be appropriate for use with adults. MSC does **not** accept Individualized Educational Programs (IEP) as official documentation. In general, the documentation of disability should include the following:

- A diagnostic statement identifying the disability, date of the current diagnostic evaluation, and the date of the original diagnosis;
- A description of the diagnostic criteria used;
- A description of the current functional impact of the disability for use in establishing the need for and the design of accommodations;
- Treatments and medications, assistive devices currently prescribed or in use;
- A description of expected progression or stability of the impact of the disability over time;
- The credential of the diagnosing professional(s)

Students requiring accommodations and/or assistance due to a disability should contact the Academic Advisement Office, Student Services Building, Suite 116. The student will be required to provide supporting documentation from a qualified professional evaluator. Murray State College complies with the Americans with Disabilities Act of 1990 and the Rehabilitation Act of 1973.

## TIPS FOR ONLINE SUCCESS

### Be Comfortable with Writing

Be comfortable expressing yourself in writing since nearly all communication in an online course is written.

### Be Self-Motivated and Self-Disciplined

The online process takes a real commitment and discipline to keep up with the flow of the work during the semester. Staying up with the class and completing all work on time is vital. Once a student gets behind, it is very difficult to catch up.

### Be Vocal

Speak up if problems arise. If you are experiencing difficulty on any level either with the technology or with the course content, you must communicate this immediately to your instructor.

### Be Committed

Be ready to commit 5-10 hours per week per course. Online learning is not easier than the traditional educational process. In fact, many students say it requires more time and commitment.

### Overall Guidelines to Success

1. Develop a schedule for completing each assignment and stick to it.
2. Keep a copy of all work mailed, e-mailed, or delivered to the instructor.
3. Always mail, e-mail, or deliver your assignment on time – early when possible.
4. Take full advantage of any online orientation or training sessions.
5. Participate in online discussions and in your groups (if you are assigned a group).
6. Have a back-up plan in case of computer failure.
7. Log in EVERYDAY even if you do not have an assignment due.
8. Alert your instructor immediately if you have family, computer, or personal problems that would prevent you from completing an assignment on time.
9. Work ahead when possible.
