NEWS FROM OUR PRESIDENT... JOY MCDANIEL

As I come upon the completion of my second year as president of Murray State College, I must convey a few words that explain the state of the college today. They are excitement, energy, and possibilities. This institution continues to convey constant discovery, remarkable achievements, and the promoted ambition of our faculty, students and of course our alumni.

It has been amazing to see our MSC alumni association grow stronger and the interest continue to grow in learning what we do. We value input from our staff, alumni and students, and feel that working closely with these different groups on different projects and events provides and promotes an exciting future. That many of you travel to be here for key events such as homecoming and alumni reunions reminds us all just how important our work here is. Bringing people together, not only to talk about our history, but to also discuss where we are now as an institution and where we are going, is vital to keeping our traditions alive and vibrant. This is something we hold very dear at Murray.

As we welcome you all back for our homecoming and annual alumni reunion in November, we maintain a strong legacy by giving the past, present, and future a chance to fellowship, to learn, and to thrive. You are invited to visit your campus at any time and we hope you can take pride in the success that you have helped us achieve.
