Murray State Adds Bachelor's Degree in Gunsmithing Technology

[Click Here for the Full Story](#)

On April 21st, the Oklahoma State Regents for Higher Education approved Murray State College's request to provide a bachelor's degree in gunsmithing technology.

To continue with the implementation process, a substantive change application must be submitted to the Higher Learning Commission (HLC) to receive change request approval. Murray State officials are developing new admissions policies and rates that are required for a bachelor's degree offering. Pending HLC approval, Murray State will begin admitting students to the program this fall.
