

Physical Therapist Assistant Program

Books for 2026/2027

The following books are the required textbooks or on-line access resources for the MSC PTA Program. Program textbooks/resources are used throughout the program in multiple courses not only in those courses listed. The faculty will make reading assignments from all program books throughout the program. Students acquire books two times during the technical portion of the program. **Students are encouraged to use a format of the book that allows for annotations. If digital books are acquired, the student should ensure they can take digital notes in the format. Active engagement with reading is required.** If you purchase a used book, you will likely NOT receive the on-line tools or website codes so purchase of used books may still require a code purchase. All program textbooks are used across multiple courses in the program.

Spring 2026
